

Mactac Protect Pro

Perfection loves protection

Mactac
Protect
Pro

Preserve and protect with Mactac Protect Pro. Featuring a durability of up to 10 years*, self-healing and an anti-yellowing top coat, this vehicle paint protection film is ideal for a lasting, pristine protection.

With a total thickness of 203 microns, the Mactac Protect Pro is ready to preserve the vehicle paint from daily wear & tear. Minor scratches fade away due to the self-healing functionality (activated by heat) and supports to keep the vehicle looking great.

The anti-yellowing top coat is particularly resistant to UV radiation and staining. After application, one will find that the film is almost invisible due to its high-gloss finish.

During wet application Mactac Protect Pro has a good slide ability supporting applicators with the positioning of the material on the substrate. Good conformability and low-tack contributes to the ease of the application.

Mactac Protect Pro is available in 1.52 m width x 15 m length and comes with a protective sheet on the face layer.

Advantages on applied vehicle parts

- Supports preventing paint damage during daily wear & tear
- Helps to protect a vehicles value
- Assists to retain the pristine appearance of a vehicle
- Good conformability and low tack contributes to the ease of application

* Vertical exposure, Zone 1.
